Web Developer

Insception Lifebank is a growing biotechnology company based in Mississauga. Insception Lifebank offers its employees a modern day work environment, with an open concept team focused environment, dress casual every day, that offers its employees a competitive compensation and benefits package and is known for the great care we take with clients and employees alike.

The Company: Insception Lifebank Cord Blood Program is Canada's largest and most experienced cord blood program in Canada. As a market leader, Insception Lifebank is committed to providing clear and balanced educational information to help Canadian families make an informed decision regarding cord blood banking options.

The Position: We're looking for highly motivated **Web Developer**, at our head office in Mississauga, ON. Reporting to the IT Manager, the Web Developer will be independently responsible for developing, maintaining, and enhancing Insception's web and mobile applications across all brands. This position is a full-time contract role for 12 months, with a possibility of extension.

Key Accountabilities

- Design & create, maintain and/or enhance existing and new websites using full-stack PHP.
- Assist in technical discussions and help drive technical decisions on existing applications and future projects.
- Convert written, graphic, audio, and video content and components to web formats, ensuring that web applications support all browsers and are cross-platform compatible.
- Create back-end code and interfaces for new web platforms.
- Document processes for existing features, and new features, as developed.
- Uphold highest standards for development by performing code reviews, fixing bugs, creating automated tests, and monitoring performance whilst ensuring the client experience is exceptional.
- Monitoring, troubleshooting, responding and fixing downtime and events as they occur.
- Work with the team on other web-based (PHP, .NET) application projects.

Requirements:

- 3-5 years' experience in web development using PHP, WordPress, Divi, .NET
- Good working knowledge of back-end systems: MySQL, SQL Server
- Understanding of HTML, CSS, JS/JQuery/Ajax
- Strong understanding of UI/UX principles for designing websites
- Good understanding with web/app design workflow including user research, user scenario, user persona, sitemap, wireframing, and mockups
- Ability to work closely with others in a team environment as well as independently
- Proven ability to problem solve and troubleshoot
- Excellent verbal and written communication skills and the ability to interact professionally with a diverse group, executives, managers, and subject matter experts
- Flexibility outside of standard business hours is required

Qualified candidates should forward their resume to: hr@insception.com. Insception Lifebank is an inclusive employer and we encourage applications from all qualified candidates and will accommodate applicants' needs under the human rights codes throughout all stages of the recruitment and selection process. Information received relating to accommodation will be addressed confidentially. We appreciate and review all applications, however, only those qualified for an interview will be contacted.
